MESSAGE FROM THE PRINCIPAL'S DESK

The Department of Physical Education, Michael Madhusudan Dutta College, Sabroom, South Tripura is organising a National Seminar in collaboration with TR & CI (Tribal Research & Cultural Institute, Govt. of Tripura) on "Promotion of Indigenous Games : Issues and Challenges with Special Reference to Tripura". A seminar of this kind will provide an opportunity to the different communities in Tripura to revive and preserve the dying traditional games which otherwise would disappear and be forgotten by the coming generations.

I would also like to mention here that the Department of Physical Education, since its inception in 2014, has made crucial contributions for the fulfilment of curriculum with an objective to prepare the students for higher education and professional development in the field of Physical Education & Sports and produce quality leaders in the society. The department is constantly endeavouring to promote and encourage external exposure.

Michael Madhusudan Dutta College, established in 1987 is the only Higher Educational Institution in Sabroom Sub-division catering to the needs of the local population. The vast campus of the college is endowed with natural beauty. It is located nearby the upcoming International Feni Bridge between India and Bangladesh. The aim of the college is "to provide inclusive and quality education to the novice minds, contributing towards nation building". The Institution also encourages students to be socially accountable.

I wish a grand success to the upcoming seminar.

Dr. T. Mog
Principal-in-charge

About The seminar

Each and every modern sport has acquired its present form from indigenous sports (for instance, the use of bow and arrow in ancient times has now taken the form of archery; spears in hunting as javelin throw, etc.) and has evolved into strict goal-centric and specialized fields. In the present era, promotion of indigenous games and sports have acquired a more relevant and functional dimension while attesting to the fact that "communities' culture can survive and flourish" and serve our "end-goal of sports for peace and development".

Sub - Themes

1. Description of Indigenous Games and Sports.
2. Health and Wellness through Indigenous Games and Sports.
3. Traditional Games & Sports as means to Improve Life and Survival Skills.
4. Holistic (Spiritual, Behavioural & Psychological) Aspects of Indigenous Games and Sports.
5. Resources and Materials used in Indigenous Games and Sports.
6. Contribution of Indigenous Games and Sports towards Society.
7. Science behind the Indigenous Games and Sports.
8. Role of Technology in Advancing Indigenous Games and Sports.
9. Government Policies on Indigenous Games and Sports.
10. Future Prospects in Indigenous Games and Sports.
